a. Identify the community-based organization(s) or victim advocates with whom you communicated:	<p>On 6.19.2022 at 1:41 pm, this Auditor contacted the Parkview Medical Center at 400 West 16th Street, Pueblo, CO 81003 phone number: 719.584.4000 and pressed 2 for the emergency room. After proper introductions and the reason for the call, this Auditor was told the hospital does have a SANE/SAFE Unit. The Auditor left a message for a call back. A call back was not received. On 8.5.2022 at 2:43 pm this Auditor again called the Domestic Safety Resource Center. After proper introductions and the reason for the call the Auditor asked the operator if the agency had a memorandum of understanding with the Lamar Community Corrections facility. The operator stated she was aware of the agreement. Upon asking the operator if the agency would report incidents of sexual abuse for a resident, she stated if the resident wanted them to report for them, the agency would make a report. The operator added the agency would meet the resident for a SANE exam, as well.</p>

Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	2

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Through staff and resident interviews file review and the tour, residents of this category were not apparent.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

- Yes
 No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

- Yes
 No

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

- Yes
 No

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

- Yes
 No

88. Informal conversations with staff during the site review (encouraged, not required)?

- Yes
 No

89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).

No informal interviews with staff as all staff completed formal interviews.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

- Yes
 No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

Staff and resident files were conducted by utilizing the PREA file review instruments.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted

1. Advantage Treatment Center Lamar PAQ
2. Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, dated 3.17.2022
3. ATC Organizational Chart, dated 6.1.2022

Interviews:

1. Random residents
2. Targeted residents
3. Client Managers
4. Security Coordinator
5. Program Director / PREA Compliance Manager
6. PREA Coordinator

Through interviews with residents and staff and review of resident and staff files, it is evident that this facility interweaves requirements for this standard in their daily protocols. Both residents and staff could speak to facility PREA practices and protocols being used as is described in the agency's PREA policy. The PREA Manager could attest to having the required time to institute and implement PREA protocols.

Interviews with Client Managers and the PREA Coordinator demonstrated employees can access the G-Drive for all agency PREA policies, Coordinated Response and required PREA forms.

Observation:

The facility has a total of two bathrooms for resident showering, dressing and toilet use. Bathrooms are set up in a hostile type setting, all toilets and showers being behind ¾ doors, allowing for privacy.

During the tour of the facility, the Auditor witnessed PREA Zero-tolerance, and laminated Audit Notices in highly trafficked areas of the facility. PREA posters included information for hotline numbers.

During the tour of the facility, various residents addressed the Program Director/PREA Compliance Manager, demonstrating they not only knew him, but felt comfortable asking him questions. In addition, it was apparent staff and residents knew the PREA Coordinator and demonstrated a mutual respect.

(a) The Advantage Treatment Center Lamar PAQ states the agency has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment in facilities it operates directly or under contract. The facility has a written policy outlining how it will implement the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The policy includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment. The policy includes sanctions for those found to have participated in prohibited behaviors. The policy includes a description of agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of residents.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 1, section Policy states, "Advantage Treatment Center facilities have a zero-tolerance policy for any sexual contact or sexual harassment, whether consensual or non-consensual, between clients and between clients and staff members. Any behavior of a sexual nature whether verbal, nonverbal, or physical is strictly prohibited at Advantage Treatment Center.

Prohibited sexual behavior includes sexual assault, sexual misconduct, staff sexual conduct in a correctional institution, and sexual harassment. Every report or observation of prohibited sexual behavior between clients or between clients and staff shall follow this policy for the prevention of, response to, training and education of, risk screening for, reporting of, response to, investigation of, for, medical and mental health care following, and data collection of incidents of prohibited sexual behavior."

(b) The Advantage Treatment Center Lamar PAQ states the agency employs or designates an upper-level, agency-wide PREA Coordinator. The PREA Coordinator has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its community confinement facilities. The position of the PREA Coordinator in the agency's organizational structure within the Human Resource Department.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 4, section d., states, "ATC has designated an upper-level, facility-wide PREA coordinator to develop, implement, and oversee ATC's effort to comply with the PREA standards in all of its facilities."

The facility provided an ATC Organization Chart. The organizational chart demonstrates the position of the PREA Coordinator is in the agency's organizational structure under Human Resources as the PREA/Training position. The PREA Coordinator reports to the President.

Through such reviews, the facility meets the standard requirements.

Interviews:

1. Random residents
2. Targeted residents
3. Client Managers
4. Supervisor, Client Manager / Security Coordinator
5. Program Director / PREA Compliance Manager
6. PREA Coordinator

Staff and residents interviewed could attest to supervisory staff conducting rounds, at random times, but at least every two hours. Staff attested to completing rounds at random times and through random direction.

Site Observation:

During the onsite review the Auditor had access to dormitories and was placed in an office area, providing full view of the courtyard where residents frequented. Staff were constantly seen outside with residents and or in dormitories.

(a) The Advantage Treatment Center Lamar PAQ states for each facility, the agency develops and documents a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring to protect residents against sexual abuse. Since August 20, 2012, or last PREA audit, whichever is later, the average daily number of residents is 28. Since August 20, 2012, or last PREA audit, whichever is later, the average daily number of residents on which the staffing plan was predicated is 36.

The facility provided at Lamar staffing Plan. The staffing plan includes the following components:

1. This is a general schedule and changes are made based on facility staffing needs and any safety concerns that arise. DCJ standards – have 2 people on shift with increased coverage for high traffic times. OBH: requires 1:20 person at all times.
2. The physical layout of the building and video monitoring system information.
3. Lamar has a capacity of 48 clients. The staffing plan is based on the facility being at max capacity. On average, we maintain between 50-75% of capacity therefore, client population has been taking into account in our staffing levels.
4. ATC management is dedicated to making adjustments to this plan based on substantiated and unsubstantiated reports that are made in the facility and will make necessary adjustments based on recommendations made by the review team as well as site management. We also discuss how the nature of any incidents may require a change in our staffing plan as part of the annual staffing plan review. ATC Lamar prides itself on client education, client care and successful community integration. If incidents arise, we will review such needs on a case-by-case basis with the recommendations from the review team as previously mentioned.

(b) The Advantage Treatment Center Lamar PAQ states each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan.

The facility provided a Sample Staffing Plan Deviation Log. The log documents the date, description and PREA impact on the facility. The facility has not had a staffing deviation since 2.22.2020.

(c) The Advantage Treatment Center Lamar PAQ states at least once every year the facility, reviews the staffing plan to see whether adjustments are needed in (1) the staffing plan, (2) prevailing staffing patterns, (3) the deployment of video monitoring systems and other monitoring technologies, or (4) the allocation of facility/agency resources to commit to the staffing plan to ensure compliance with the staffing plan

ATC PREA Staffing Plan Annual Review Lamar on 12.21.2021. The review consists of the following:

1. Adjustments needed to prevailing staffing patterns?
2. Adjustments needed to deployment of video monitoring systems and other motoring technologies?
3. Is the allocation of additional resources necessary in order to commit to the staffing plan and ensure adequate staffing levels?
4. Any issues, concerns or changes required in order to adequately complete with the staffing plan?

Through such reviews, the facility meets the standards requirements.

115.215 Limits to cross-gender viewing and searches

Auditor Overall Determination: Exceeds Standard

Auditor Discussion

Document Review:

- 1. Advantage Treatment Center Lamar PAQ
- 2. Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, dated 3.17.2022

Interviews:

- 1. Random residents
- 2. Targeted residents
- 3. Client Managers
- 4. Supervisor, Client Manager / Security Coordinator
- 5. Program Director
- 6. PREA Coordinator

Interviews with residents demonstrated the facility has respectable processes in place for searches and urinalysis testing.

Interviews with staff demonstrated cross-gender searches are not conducted. Because all staff did not believe to be prepared for transgender searches, the Auditor recommended transgender searches be revisited with security staff.

Site Observation:

During the tour of the facility the Auditor observed the Intake area, which is at the front desk of the facility. Pat searches are conducted at the front desk under the view of a camera with audio recordings. Just inside the front desk is restroom with a sink and toilet with a mirror placed on walls in the front and along the side of the toilet. When conducting urinalysis testing, staff close the door, stand near the closed door and observe testing via the mirrors in the restroom.

(a) Advantage Treatment Center Lamar PAQ states the facility does not conduct cross-gender strip or cross-gender visual body cavity searches of their residents. In the past 12 months the facility has conducted zero cross-gender strip or cross-gender visual body cavity searches of residents. In the past 12 months, the number of cross-gender strip or cross-gender visual body cavity searches of residents were zero. In the past 12 months, the number of cross-gender strip or cross-gender visual body cavity searches of residents that did not involve exigent circumstances or were performed by non-medical staff was zero.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 4, section iii, states, "ATC staff will not search or physically examine a transgender or intersex resident for the sole purpose of determining the client's genital status. If the client's genital status is unknown, it may be determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner."

(b) Advantage Treatment Center Lamar PAQ states this provision is not applicable as the facility does not house female residents.

(c) Advantage Treatment Center Lamar PAQ states the facility policy requires that all cross-gender strip searches and cross-gender visual body cavity searches be documented. The PAQ states the facility will never conduct strip searches/cavity searches on any resident.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 4, section iv, states, "ATC staff will never conduct strip or body cavity searches under any circumstances."

(d) Advantage Treatment Center Lamar PAQ states the facility has implemented policies and procedures that enable residents to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks (this includes viewing via video camera). Policies and procedures require staff of the opposite gender to announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 4, section A), states, "Staff of the opposite gender announce their presence when entering an area where residents are likely to be showering, performing bodily functions, or changing clothing."

(e) The Advantage Treatment Center Lamar PAQ states the facility has a policy prohibiting staff from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status. Such searches (described in 115.215(e)-1) occurred in the past 12 months was zero.

Policy compliance can be found in provision (a) of this standard.

(f) The Advantage Treatment Center Lamar PAQ states zero percent of all security staff received training on conducting cross-gender pat-down searches and searches of transgender and intersex residents in a professional and respectful manner, consistent with security needs.

The agency does not train on cross gender searches as it is against agency policy to perform such searches. Reference provision (c) of this standard for policy compliance.

Through such reviews of the facility practice to never conduct cross-gender searches, the facility exceeds the standard requirements.

Interviews:

1. Supervisor, Client Manager / Security Coordinator
2. PREA Coordinator

During interviews with staff, each stated residents were not used for translation services. Barriers were not apparent during interviews and or the facility tour. There were no limited English-speaking residents at the facility.

(a) The Advantage Treatment Center Lamar PAQ states the agency has established procedures to provide disabled residents equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 4, section d. i., states, "Staff shall take appropriate steps to ensure that clients with disabilities (including, for example, clients who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps shall include, when necessary to ensure effective communication with clients who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, staff shall ensure that written materials are provided in formats or through methods that ensure effective communication with clients with disabilities, including clients who have intellectual disabilities, limited reading skills, or who are blind or have low vision. A facility is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under title II of the Americans With Disabilities Act, 28 CFR 35.164."

(b) The Advantage Treatment Center Lamar PAQ states the agency has established procedures to provide residents with limited English proficiency equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. The facility addresses compliance in provision (a) of this standard.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 4, section d. ii., states, "Staff shall take reasonable steps to ensure meaningful access to all aspects of the facility's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to clients who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary within one (1) business day of arrival to the program."

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 4, section d. iii., states, "Staff shall not rely on client interpreters, client readers, or other types of client assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the client's safety, the performance of first-response duties, or the investigation of the client's allegations."

The facility provided Interpreter Services Instructions for Cesco Linguistic Services. The instructions direct staff to:

1. Dial the designated number
2. When the operator answers, answer the following questions: customer code, first and last name, office the caller is calling from, language needed
3. The operator then connects the caller with the interpreter requested.
4. Further instructions exist for "how to access an interpreter when the end user calls in to talk to a service provider."

The facility provided a Colorado Community Corrections PREA PowerPoint Staff Training. Slide 53 of the PowerPoint training states the following:

1. "When employees or contract workers are not able to adequately translate, the services of qualified language translator for non-English speaking clients must be obtained.
2. This arrangement is at no cost to the client.
3. The interpreter information is in the PREA folder located in the ATC toolkit on the google drive."

(c) The Advantage Treatment Center Lamar PAQ states the agency policy prohibits use of resident interpreters, resident readers, or other types of resident assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of first-response duties under §115.264, or the investigation of the resident's allegations. If YES, the agency or facility documents the limited circumstances in individual cases where resident interpreters, readers, or other types of resident assistants are used. In the past 12 months, the number of instances where resident interpreters, readers, or other types of resident assistants have been used and it was not the case that an extended delay in obtaining another interpreter could compromise the resident's safety, the performance of first-response duties under § 115.264, or the investigation of the resident's allegations was zero.

Through such reviews, the facility meets standard requirements.

The Administrative staff was new to her position and not aware applicants required institutional reference checks or the need for promoted staff to complete administrative adjudication questions.

Site Observation:

1. Employee file review demonstrated a background check was not available for one facility staff. Post audit, the facility was able to provide the background check had been completed on 4.7.2021.

3. File review demonstrated a current system was not in place for three employees promoted in the past 12 months.

Action Plans:

The facility was required to complete the following action plans:

1. Facility staff who have been promoted in the past 12 months to complete documentation as is described in provision (f) of this standard. Upload completed documentation in the supplemental files in the online audit system.
2. Facility staff member to complete background check. Upload completed background check to the supplemental files in the online audit system.
3. Facility to provide a sustainable action plan for the completion of institutional background checks.

During the onsite review, the PREA Coordinator provided an email communication, RE: ATC Hiring Process, regarding Institutional Reference Checks, to the Administration Team and the Auditor, stating, "Attached is the ATC hiring policy and the most updated interview questions. The process we discussed going forward in order complete with the PREA standard is: whoever does the interview, call any previous institutions, jails, correctional facilities etc. that the applicant has previously worked at and verify that applicant is clear/guilty of the following: Has the applicant been involved in allegations that were substantiated or resigned pending an investigation into the following allegations: engaging in sexual abuse, sexual activity with residents, or sexual harassment? Please refer to the hiring process to help as a guide." The facility also provided interview questions, to include: (Privacy Act Statement)

The facility provided five completed Privacy Act Statements.

During the onsite review the PREA Coordinator provided the facility and the Auditor with Interview Questions. The Interview Questions include the questions duplicate to those stated in the Privacy Act Statement. In addition, the Interview Questions prompt the interviewer to complete the following.

1. PREA background records check:
 2. Who was called
 3. Date/time of contact
 4. Verify
 - a. Has the applicant been involved in allegations that were substantiated for engaging in sexual abuse, sexual activity with residents, or sexual harassment?

b. Have applicant resign pending an investigation into sexual abuse, sexual activity with resident or sexual harassment?

(b) The Advantage Treatment Center Lamar PAQ states agency policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents.

Advantage Treatment Center, Inc., Hiring Process, page 3, section PREA Policy and Hiring Process, B., states, "ATC will consider any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents."

(c) The Advantage Treatment Center Lamar PAQ states the agency policy requires that before it hires any new employees who may have contact with residents, it (a) conducts criminal background record checks, and (b) consistent with federal, state, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. In the past 12 months, the number of contracts for services where criminal background record checks were conducted on all staff covered in the contract who might have contact with residents was zero.

Advantage Treatment Center, Inc., Hiring Process, page 3, section PREA Policy and Hiring Process, D., states, "ATC will also perform a criminal background record check before enlisting the services of any contractor who may have contact with residents."

The agency follows the same hiring process for volunteers and contractors as it does for personnel. (e) The Advantage Treatment Center Lamar PAQ states agency policy requires that either criminal background record checks be conducted at least every five years for current employees and contractors who may have contact with residents or that a system is in place for otherwise capturing such information for current employees.

Advantage Treatment Center, Inc., Hiring Process, page 3, section PREA Policy and Hiring Process, E., states, "ATC will either conduct criminal background records check at least every five years of current employees and contractors who may have contact with residents or have in place a system for otherwise capturing such information for current employees."

Site Observation:

There were zero investigations requiring a forensic medical examination in the last 12 months.

(a) The Advantage Treatment Center Lamar PAQ states the agency/facility is responsible for conducting administrative sexual abuse investigations (including resident-on-resident sexual abuse or staff sexual misconduct). The agency/facility is not responsible for conducting criminal sexual abuse investigations (including resident-on-resident sexual abuse or staff sexual misconduct). The Lamar Police Department would conduct sexual abuse investigations.

When conducting a sexual abuse investigation, the agency investigators follow a uniform evidence protocol.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 7, section F. a-b., "Where sexual harassment is alleged, the facility shall investigate promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. If the incident is determined to be founded by the PREA Coordinator, the incident will be passed on to local law enforcement.

Where sexual abuse is alleged, the facility shall contact the local law enforcement agency to conduct the investigation.

Post Audit Action Plan: Email Notification, from: Facility Director, RD: 30-day PREA Updates, to: Case Managers, stating, "Attention all Case Managers. Please read the attached letter and confirm with me that it has been read and understood. This has been our previous method of verifying our updates and documentation. This will be enforced, and we will get back to auditing each file at the 30-day mark. Please be sure to add a 30 day to your atta glance or client board. We will discuss the expectation in more detail during the staff meeting tomorrow. This is effective immediately so please bring names of the clients who have been at ATC for more than 30 days to be assigned auditing clients. I have also attached Kristie to this email so that as we are working with her for training purposes, she may be helpful in reiterating the use of our atta glance and or boards."

Letter to staff, attached to the Post Audit Plan email:

"To all case management and to whom it may concern,

2. Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, dated 3.17.2022
3. PREA Coordination Reports, dates not shown on this report to protect victims.

Interviews:

1. Client Managers

Interviews with Client Managers demonstrated each were aware of their first responder responsibilities. Staff stated reporting information is carried with them on their PREA cards which are on the reverse side of their identification badges, also part of their uniform requirements.

(a) The Advantage Treatment Center Lamar PAQ states the agency has a first responder policy for allegations of sexual abuse. The policy requires that, upon learning of an allegation that a resident was sexually abused, the first security staff member to respond to the report shall be required to separate the alleged victim and abuser. The policy requires that, upon learning of an allegation that a resident was sexually abused, the first security staff member to respond to the report shall be required to preserve and protect any crime scene until appropriate steps can be taken to collect any evidence. The policy requires that, upon learning of an allegation that a resident was sexually abused and the abuse occurred within a time period that still allows for the collection of physical evidence, the first security staff member to respond to the report shall be required to request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. The policy requires that, upon learning of an allegation that a resident was sexually abused and the abuse occurred within a time period that still allows for the collection of physical evidence, the first security staff member to respond to the report shall be required to ensure that the alleged abuser not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.

In the past 12 months, two allegations occurred where an inmate was sexually abused.

Of these allegations, the number of times the first security staff member to respond to the report separated the alleged victim and abuser was one. The PREA Coordinator explained "that the second allegation was a rumor that we could not substantiate or find evidence to collaborate, so it was deemed unfounded."

In the past 12 months, the number of allegations where staff were notified within a time period that still allowed for the collection of physical evidence was two; however, the PREA Coordinator stated there was no physical evidence to collect. Neither incident involved any form of forced assault."

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, pages 6-7, section E. a. i. A-F, states, "Staff First Responder Duties - Upon learning of an allegation that a client was sexually abused, the first staff member to respond to the report shall be required to:

- A) Separate and isolate both the victim and the alleged perpetrator until instructed otherwise by the Program Director.
- B) Immediately notify the Program Director and local law enforcement
- C) Instruct both the victim and the alleged perpetrator not to shower, wash, brush their teeth, use the restroom, change clothing or anything else that could potentially compromise evidence.
- D) Staff shall separate and isolate any and all witnesses to the alleged incident until instructed otherwise by the Program Director.
- E) Follow the crime scene management priorities of: personal safety, preserve life, prevent further hostilities, protect the scene, and preserve evidence.
- F) Cordon off the crime scene and keep a log of all people entering and their purpose. Staff shall be aware of and prevent common crime scene destruction factors by not stepping through blood, not touching weapons, not moving or touching evidence, and not allowing non-critical response personnel to enter the scene.

(b) The Advantage Treatment Center Lamar PAQ states the facility's' policy requires that if the first staff responder is not a security staff member, that responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence and notify security staff. Of the allegations that a resident was sexually abused made in the past 12 months, the number of times a non-security staff member was the first responder was one. During the pre-audit phase the PREA Coordinator stated the second incident the client went directly to the Program Director first. The reporting party was responding to verbal comments that he heard about a consensual relationship between a staff member and a client." Of those allegations responded to first by a non-security staff member, the number of times that staff member notified security staff was zero. The PREA Coordinator stated, "client went straight to the site investigator who then responded and there was no need to get security involved."

Through such reviews, the facility meets standard requirements.

Items staff should monitor include any client disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The facility shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need."

The facility provided a PREA Follow Up/Monitoring Form. This form is used for retaliation monitoring, includes directional steps for those utilizing this form and documents the following:

Site Observation:

The facility has not had an allegation of sexual harassment or sexual abuse in the past 12 months.

(a) The Advantage Treatment Center Lamar PAQ states the agency has a policy requiring that any resident who makes an allegation that he or she suffered sexual abuse in an agency facility is informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation by the agency. The facility provided two PREA Coordinator Reports summarizing the allegations, providing information on the incident, status of the investigation, outcome of the investigation. Retaliation was not completed as one investigation was unfounded and the client exited the program due to feeling unsafe.

(b) The Advantage Treatment Center Lamar PAQ states an outside entity conducts such investigations, the agency requests the relevant information from the investigative entity in order to inform the resident of the outcome of the investigation. The number of investigations of alleged resident sexual abuse in the facility that were completed by an outside agency in the past 12 months was one. A police report/investigation was provided for this allegation.

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 11, section ix. B., states, "If an outside entity conducts such investigations, the agency requests the relevant information from the investigative entity in order to inform the resident of the outcome of the investigation."

Advantage Treatment Center Prison Rape Elimination Policy and Procedure CS-070, page 11, section ix. C. a-e, states, "Following a client's allegation that a staff member has committed sexual abuse against the client, the Program Director or designee shall subsequently inform the client (unless the facility has determined that the allegation is unfounded) whenever:
